Name (First Last)	Email	Phone 999-999-9999
Susan Perez	susan.perez@csus.edu	530-848-8011

Type of Program Proposal:

Major

Program Change Type:

Substantive

Is this a pilot program?

No

Delivery Format:

Hybrid

Title of the Program:

BS in Public Health (Health Promotion)

Designation: (degree terminology)

Bachelor of Science

Briefly describe the program proposal (new or change) and provide a justification:

The revised name and updated courses better align our program with the field and practice of public health. Course revisions are intended to update to the curriculum, reflecting requirements that better align with our program learning objectives. The change in format, from face-to-face to hybrid, allows us to offer a combination of in-person and online courses to address student constraints in accordance with the Chancellor's office's standards. Lastly, we are removing the pre-major requirement to allow direct admission into our program. The pre-major (lower division) courses are still required, but this change allows students to declare the major before completing those required courses, thus removing one of the primary barriers to entry into the program. The pre-major requirement was installed several years ago when this program was impacted. Now that impaction has been removed, this extra barrier no longer serves the program or our students.

Catalog Description:

Units required for Major: 54-62

Total units required for BS: 120

Program Description

The academic area of study in Public Health is part of the College of Health and Human Services. Students pursue a Public Health concentration leading to a degree with specialization and job skills applicable to one of two professional areas of study: Health Promotion or Occupational Safety & Health. The program supports focused academic preparation in each concentration such that Public Health BS graduates will have job appeal in their chosen professional field.

Students can expect to be involved in both coursework and field experiences across areas of Public Health practice and within each concentration, such as consumer health issues, alcohol and other drugs, human sexuality, health promotion, unintentional injury causes and prevention, and other personal, occupational, and community health and safety issues.

Students should check the Department website (https://www.csus.edu/college/health-human-services/public-health/) for requirements and speak with the Public Health academic advisor to help with their academic plans.

Note: Students graduating with a BS in Public Health (all concentrations) will not be subject to the University's Foreign Language Graduation Requirement. Students who change major may be subject to the University's Foreign Language Graduation Requirement.

Admission Requirements: Course prerequisites and other criteria for admission of students to the degree major program, and for their continuation in it.

Admission Requirements

Direct Admission

When applying to Sacramento State through CSU Apply, selecting Public Health (all concentrations) will grant admission without any additional supplemental documentation.

The Bachelor of Science in Public Health program requires 12 units of lower-division courses that should be completed prior to starting upper division coursework.

Additional Information

Repeat Policy: Public Health majors and minors can only repeat Public Health courses one time if they receive less than a "C." Students must meet with their academic advisor before petitioning the department to repeat the course. Refer to the Repeat Policy section of the Sacramento State Catalog for additional information.

Credit by Examination: A student who seeks course credit by examination is to enroll in the course to be challenged. No course may be challenged after the first two weeks of the semester. The instructor of the course will conduct an assessment of the student's readiness for the challenge for credit examination. Refer to Credit by Examination section of the Sacramento State Catalog.

Advising: It will be necessary to work very closely with an advisor to complete the BS degree in a timely manner. Therefore, the Public Health faculty strongly recommends that all Public Health students consult with an advisor prior to enrollment for any course. This procedure should be followed each semester.

As defined by policy http://www.csus.edu/umanual/acadaff/fsm00010.htm, a change in units constitutes a substantive change to the program. If your changes constitute a substantive change, please refer back to the "Program Change Type" field above to ensure that "Substantive" is selected.

Program Requirements: (If new courses are being created as part of a new program, it will be useful to propose courses first.)
