Justification for course proposal:

A majority of the advanced practice nursing organizations are proposing the Doctor of Nursing Practice (DNP) as entry into advanced practice. A DNP degree offers several benefits that can shape an individual's health care career, opening new opportunities, building on specialized knowledge, and improving performance. Therefore, the School of Nursing applied to have a DNP program added to the campus master plan and received approval spring 2024. This course proposal is for one of the required courses in this new program.

In addition to meeting CSU requirements for doctoral education and postsecondary faculty preparation, this course will be part of a program accredited by the Commission on Collegiate Nursing Education (CCNE). CCNE standard include 29 "Essentials" for curriculum and requires 1,000 practicum hours and that students become eligible for an advanced certification (Certified Nurse Leader (CNL®), Nursing Professional Development (NPDTM), or Certified Nurse Educator (CNE®)). This course includes practicum hours and covers:

Essentials: Doctoral Education #1. Clinical judgement, #4. diversity, equity, and inclusion, & #8. Social determinants of health; Nursing Practice #2. Person-centered care, #3. Population health; Core Concepts #6. Interprofessional collaboration for improving patient and population health outcomes & #7. Clinical prevention and population health for improving the nation's health

Course Description: (Not to exceed 90 words and language should conform to catalog copy.)

Exploration of concepts of population-centered health promotion, illness and disease prevention, chronic disease, health indicators, and the relationship of the structural and social determinants of health. Development and implementation of community-based assessments and interdisciplinary interventions using epidemiological data, stakeholder and key informant interviews using culturally appropriate methods.
