Justification for course proposal:

A majority of the advanced practice nursing organizations are proposing the Doctor of Nursing Practice (DNP) as entry into advanced practice. A DNP degree offers several benefits that can shape an individual's health care career, opening new opportunities, building on specialized knowledge, and improving performance. Therefore, the School of Nursing applied to have a DNP program added to the campus master plan and received approval spring 2024. This course proposal is for one of the required courses in this new program.

In addition to meeting CSU requirements for doctoral education and postsecondary faculty preparation, this course will be part of a program accredited by the Commission on Collegiate Nursing Education (CCNE). CCNE standard include 29 "Essentials" for curriculum and requires 1,000 practicum hours and that students become eligible for an advanced certification (Certified Nurse Leader (CNL®), Nursing Professional Development (NPDTM), or Certified Nurse Educator (CNE®)). This course includes practicum hours and covers:

Essentials: Doctoral Education #7. Health policy; Nursing Practice #5. Quality and safety & #10. Personal, professional, and leadership development; Core Concepts #2. Organizational and systems leadership for quality improvement and systems thinking (performance improvement & QI data), & # 7. Clinical prevention and population health for improving the nation's health, & #8. Advanced nursing practice

Certifications: CNL #2. Quality improvement, #4. Care coordination, & #7. Patient outcomes measurement; NPD #6. Program/project management and process improvement; CNE #7. Continuous quality improvement in the academic nurse educator role

Course Description: (Not to exceed 90 words and language should conform to catalog copy.)

Exploration of risk management and quality improvement strategies applied in healthcare emphasizing creating a culture of safety. Utilization of data indicators and statistical analysis as drivers for policy change. Focus is on identification, development, and application of strategies for effective patient and organizational outcomes meeting quality measures of accreditation and regulatory bodies.
