**Justification for course proposal:**

A majority of the advanced practice nursing organizations are proposing the Doctor of Nursing Practice (DNP) as entry into advanced practice. A DNP degree offers several benefits that can shape an individual's health care career, opening new opportunities, building on specialized knowledge, and improving performance. Therefore, the School of Nursing applied to have a DNP program added to the campus master plan and received approval spring 2024. This course proposal is for one of the required courses in this new program.

In addition to meeting CSU requirements for doctoral education and postsecondary faculty preparation, this course will be part of a program accredited by the Commission on Collegiate Nursing Education (CCNE). CCNE standard include 29 "Essentials" for curriculum and requires 1,000 practicum hours and that students become eligible for an advanced certification (Certified Nurse Leader (CNL®), Nursing Professional Development (NPDTM), or Certified Nurse Educator (CNE®)). This course includes practicum hours and covers:

Essentials: Doctoral Education #2. Communication, & #6. Evidence-based practice; Postsecondary Faculty Preparation #1. Research and scholarship; Nursing Practice #1. Knowledge of nursing practice. #4. Scholarship for nursing discipline, & #10. Personal, professional, and leadership development; Core Concepts #3. Clinical scholarship and analytical methods for evidence-based practice, #6. Interprofessional collaboration for improving patient and population health outcomes, & # 8. Advanced nursing practice

Certifications: CNL #3. Evidence-based practice (including disseminating research findings to improve patient care); NDP #4. Evidence-based practice and research
