Course Learning Outcomes:

GRADUATE

Mastery of each student-learning outcome listed below is indicated by a grade of B or better on each component of the corresponding measures listed in the table. Students are required to track their progress towards meeting each learning outcome and must make an appointment with the instructor for any grade equal to or less than a B. The instructor will suggest strategies to help you establish competence and knowledge in these areas.

Students should track their progress towards meeting each learning outcome by listing their grades on the table below over the course of the semester.

CSAD 244 SPECIFIC STUDENT LEARNING OUTCOMES:

1. Discuss and compare the usefulness of various standardized and non-standardized testing instruments, including systematic observation. This will be evaluated by the verbal contributions made in the classroom.
2. Write a comprehensive, yet succinct, Assessment Plan for an individual client. These plans will be presented in written and verbal format to the class on the week prior to the actual assessment. Plans will be evaluated on appropriateness to the client, comprehensiveness, and whether or not the plan is time efficient. Oral presentations will be graded on clarity of presentation.
3. Verbally exchange ideas and information with classmates regarding the pros and cons of any one particular standardized and/or non-standardized testing instrument for evaluating any one client, utilizing a “Grand Rounds” approach.
4. Discuss the purpose and format of the Diagnostic Summary in a client report.
5. Evaluate Client Questionnaires and historical information using critical thinking and decision making to develop assessment plans.
6. Present assessment plans to the class in a collaborative and Grand Rounds manner and for the purpose of receiving collaborative feedback.

Textbooks and Materials:

The student will use references in his/her personal library, the clinic supply room and the University library as needed. Please review your notes from CSAD 147 and the Shipley book frequently.

Online Resources:

The student will reference Canvas and Zoom for this course as additional supports will be provided there.

Course Requirements/Components:

ATTENDANCE:

Class attendance and promptness are required and roll will be taken each session. All absences must be reported via voice mail or email to the instructor prior to class meeting. One excused absence will be granted to each student per semester. This absence excuses the student from being docked attendance, participation and professional behavior points for that day. Absences will not be excused on days in which the student is scheduled to present their client's assessment plan to the class. These excusals will include flat tires, mild illness without a doctor's note, previously scheduled events, professional conferences, etc. All other absences will be excused for documented emergencies or conflicts only: ***You must provide professional written documentation of the emergency or conflict to the instructor.*** All other absences will be considered unexcused. Attendance and participation are essential ingredients to a professional who wishes to be a successful employee. Unexcused absences will lower the overall final semester grade by 5 points.

COVID Attendance Policy: Students who become ill or are placed under quarantine during the COVID-19 pandemic should contact the instructor as soon as possible. Alternative attendance will be set in order to ensure that the student is not penalized for circumstances related to COVID. These circumstances will be formulated on a case by case basis as the situational circumstances will be idiosyncratic.

CLASS PARTICIPATION:

Class participation points will be assigned during in class discussion. A modified Socratic method will be employed, whereby students will be called upon randomly to contribute to classroom discussions. Class participation points will be assigned according to discussion board comments. You are required to make a constructive comment on each assessment plan presented.

PROFESSIONAL BEHAVIOR:

Professional behavior points will be awarded for appropriate professional behavior during class. Professional behavior includes (but is not limited to): arriving on time for class, having materials ready prior to the beginning of class, professional tone of voice, use of professional terminology, extending courtesy and respect during peer presentations, and making responsible and ethical contributions. Points may be sacrificed for unprofessional behavior. Professional behavior includes following professional virtual expectations.

ASSESSMENT PLANS:

You will be expected to submit a written assessment plan posted to the Canvas discussion board on the Friday preceding your assigned assessment. You will be expected to verbally present a brief history of your upcoming client and outline what your assessment team will be doing during the assessment. Classmates are urged to ask questions and offer recommendations. Class discussion is expected.

VERBAL PRESENTATIONS:

Students will present their assessment plan to the class the week prior to their scheduled assessment. They will use their assessment plan as a guide to discuss their client's reason for referral, the salient details of their client's history and their assessment plan. For full points students will readily discuss their client, hypothesis, and the steps taken to formulate their plan. They should be prepared to answer questions about this process as well as ask thoughtful questions of their peers.

REFLECTION ON ACTION:

One "Reflection-On-Action" document will be completed during the semester as a means of reflecting on your assessment. This reflection should be completed after the first assessment completed. These reflections will be submitted to your Clinical Instructor for discussion. The clinical instructor and course instructor will determine the student's points relative to their reflection of the session.

Grading Policy:

Points for each area will be assigned by the instructor according to the previous mentioned description. Late assignments will not be accepted without written documentation of a verified emergency.

Course Policies/Procedures:

LATE ASSIGNMENTS:

Assignments are considered late after the posted deadline day and time, the start of the class period or when collected by the instructor.

SCHEDULED ASSESSMENTS:

Your assessment schedule will be provided to you via the clinic scheduling office. Each student will be expected to complete 3 assessments as a part of an assessment team consisting of two students. The assessments will be spread over several weeks and under one clinical instructor. Modifications to the schedule MUST not be made without approval by the class instructor.

PERFORMANCE IMPROVEMENT PLANS:

A Performance Improvement Plan may be implemented at any time by the clinical instructor. Performance Improvement Plans are used as teaching tools to assist students in the demonstration of proficiency in any area related to assessment. Performance Improvement Plans may or may not be assigned at the time of a competency form. Performance Improvement Plans that are written must be successfully completed by the student prior to receiving a passing grade in the clinic. Students with outstanding Performance Improvement Plan(s) or those who fail to successfully complete a Performance Improvement Plan will not receive a passing grade for the clinic. Their final grade will be determined by their clinical instructor after a careful review of competency scores and progress towards the Performance Improvement Plan(s).
