

Department of Communication Sciences and Disorders

Immunizations, Testing & Vaccines

All Students

Per the campus Immunizations, Testing & Vaccines webpage (<https://www.csus.edu/student-life/health-counseling/health/immunizations-and-vaccines.html>)

“California State University (CSU) requires all students to be current on a number of immunizations and to complete a risk assessment for tuberculosis (CSU Executive Order 803).

This executive order and its requirements apply to undergraduate and graduate students, students matriculated in self-support degree programs and K-12 students participating in concurrent enrollment courses entering the California State University.”

All Students are required to have the following immunizations:

- Measles, Mumps, Rubella (MMR)
- Meningococcal ACWY (16-21 years)
- Hepatitis B (18 and younger, CA Health & Safety Code, Sec. 120390.5)

Additional Recommended immunizations

- COVID
- Hepatitis A
- Human Papillomavirus (HPV)
- Influenza (Flu)
- Meningococcal B (16-23 years)
- Pneumococcal
- Poliovirus

For additional and current Sac State Immunizations, Testing & Vaccines information please visit the website: <https://www.csus.edu/student-life/health-counseling/health/immunizations-and-vaccines.html>

For Current California State University system requirements, please view the current admission handbook posted at <https://www.calstate.edu/attend/student-services/>

Undergraduate students in a clinical practicum course

It is assumed that undergraduate students enrolled in a clinical practicum course (example: CSAD 146) have the campus required vaccinations:

- Measles, Mumps, Rubella (MMR)
- Meningococcal ACWY (16-21 years)
- Hepatitis B (18 and younger, CA Health & Safety Code, Sec. 120390.5)

In addition, students will be **required** to provide documentation of passing a one-step Tuberculosis (TB) test.

It is recommended that students also have the following immunizations:

- COVID
- Hepatitis A
- Human Papillomavirus (HPV)
- Influenza (Flu)
- Meningococcal B (16-23 years)
- Pneumococcal
- Poliovirus
- Tetanus-Diphtheria-Pertussis (Tdap)
- Varicella (Chickenpox)

CSAD MS Students

All CSAD MS Students

It is assumed that Communication Sciences and Disorders Master of Science program students have the campus required vaccinations:

- Measles, Mumps, Rubella (MMR)
- Meningococcal ACWY (16-21 years)
- Hepatitis B (18 and younger, CA Health & Safety Code, Sec. 120390.5)

On-Campus Clinics

CSAD MS students enrolled in an on-campus clinical practicum course (examples: CSAD 229A, 229B, 229C, 243A, 243B, 243C, 245) are **required** to provide documentation of passing a one-step Tuberculosis (TB) test **annually**.

It is recommended that students also have the following immunizations:

- COVID
- Hepatitis A
- Human Papillomavirus (HPV)
- Influenza (Flu)
- Meningococcal B (16-23 years)
- Pneumococcal
- Poliovirus
- Tetanus-Diphtheria-Pertussis (Tdap)
- Varicella (Chickenpox)

Off-Campus Clinics/Internships/Externships

In addition, CSAD MS students enrolled in an off-campus clinic, internship, or externship (examples: CSAD 295I, 295M, 295P) are required to provide documentation of passing a one-step Tuberculosis (TB) test **annually**.

Students will also be required to comply with the specific requirements of the off-campus site.

It is recommended that students also have the following immunizations:

- COVID
- Hepatitis A
- Human Papillomavirus (HPV)
- Influenza (Flu)
- Meningococcal B (16-23 years)
- Pneumococcal
- Poliovirus
- Tetanus-Diphtheria-Pertussis (Tdap)
- Varicella (Chickenpox)
