Two of my prior Howard graduate students (who were African American) planned to submit NIH grants for tuition remission and stipend.

(Howard is an HBCU)

NIH/NCI grant application entitled “Ruth L. Kirschstein National Research Service Awards for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research (Parent F31-Diversity; PA-11-112).”

Greene, D.T. (PI) 7/1/2014-6/30/2019

Will Submit: December 12,

2013 **Title:** Effects of Cognitive Reappraisal and Emotional Suppression in Minority Women with Triple Negative Breast Cancer (which disproportionately affects African Americans and Latinas)

Goal: The primary goal of this grant is to increase the number of diverse scientists in the fields of biomedical, behavioral, health, and clinical sciences. The observational study goals are to determine the psychosocial outcomes of antecedent and response based emotion regulation strategies in minority women with triple negative breast cancer.

Percent Effort: 100% for 5 years of tuition costs, stipends, research expenses such as participant recruitment, intervention procedures, and measures.

Role: Principal Investigator, Graduate School Mentor- Georita M. Frierson, Ph.D.

Approximately \$42,232/academic year

NIH/NCI “Ruth L. Kirschstein National Research Service Award for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research, (Parent F31-Diversity; PA-11-112).”

Kirk, K.F. (PI) 7/1/2014-6/30/2017

Will Submit: December 12, 2013

Approximately \$42,232/academic year

Title: Group-Centered Physical Activity in Young and Minority, Urban-dwelling Women: Reduction of Breast Cancer Risk.

Goal: The overall goal of this award is to ensure that a diverse pool of trained scientists is available to address the Nation's biomedical, behavioral, and clinical research priorities. The primary study goal is to determine if adherence to group-centered physical activity interventions and/or the benefits of group activity produce a difference in psychosocial and physical activity outcomes in young and minority women living in the District of Columbia/Maryland/Virginia area.

Percent Effort: 100% for up to 3 years or predoctoral tuition, stipend, and institutional allowance (indirect costs, research supplies, books, travel to scientific meetings).

Role: Principal Investigator, Graduate School Mentor- Georita M. Frierson, Ph.D.

Approximately \$42,232/academic year

Community-based Research Projects

Project COMMUNITY

8/7/2010-8/2015

Title: Project COMMUNITY

Goal: This IRB-approved initiative for a recruitment registry was started on August 07, 2010 with a goal of having at least 1000 males and females (>80% racial/ethnic minorities) complete the form by December 31, 2010. Over 1000 persons completed this form by December 16, 2010. Questions from this form can also be used for pilot data for a longitudinal health promotion study.

Role: Principal Investigator

Funding Agency: multiple profit and not for profit organizations offered freebies, raffles, gift cards etc.

Project GATHER

9/1/2009-11/3/2011

Title: Project GATHER (**G**roup discussions **a**round themes of **h**ealthy genetic **r**esearch)

Goal: This project was a mixed-methods design of 100+ item questionnaire and a 90-minute focus group that assessed behavior intention, barriers and facilitation factors of 137 women and men from multiple races/ethnicities in Dallas Fort Worth, Texas.

Role: Principal Investigator

Funding Agency: not applicable
