

Outstanding Long-Term Professional

Noelle McCurley

I'm nominating Student Services and Special Projects Coordinator, Noelle McCurley, who serves directly under the Vice President for Student Affairs. Noelle has been employed by the University for 30 years. She has worked in the Registrar's Office and Academic Advising, among other departments. Because of her professionalism and vast knowledge of advising and assisting students, she was brought in to the Vice President for Student Affairs office in 2014, to directly assist the VPSA with an array of student issues. Noelle is always upbeat and connects extremely well with students and colleagues. She is well-respected and well-versed in policies and procedures, and can solve almost any student issue. Noelle is a one-stop for students she assists. She often helps students map out their courses in order to most effectively meet the requirements to graduate. In addition to her work in the VPSA's office, Noelle assists the Registrar's office, CCE and the SARC with reviewing and making decisions on ASC petitions, advising student-athletes, and returning students. Noelle prides herself in her work, and it shows. She has a passion for helping students, not only efficiently helping them get to graduation, but also connects with them in a way that numerous students have returned to meet with her several times throughout their academic careers. I strongly recommend Noelle for this award. I have worked directly with Noelle in the VPSA's office and have witnessed her stellar performance. There aren't many who go above and beyond to help our students and other staff.
